GUIDELINES: WHAT TO AVOID	15

Since its opening in spring 1997, the Chan Centre for the Performing Arts has earned an international reputation for its striking design and stellar acoustics. Artists, critics and patrons alike are unanimous in their praise of the multi-faceted facility, winning it a place among North America's premier performing arts venues.

REBRANDING RATIONALE

The Chan Centre for the Performing Arts rebranding process involved solidifying elements within the old logo. The existing brand required a fresh approach leaving out ‘the’ in the name and bringing together the brand into a contained identity, which can be utilized consistently across a variety of platforms. Arcs, organic linework, legible type for smaller applications, were some of the objectives in developing the rebrand. Maintaining a level of recognizability from the initial logo was essential. This was achieved through keeping the linework elements, and introducing a curved structure to house the name.

TAGLINE VARIATION

6. A SOUND EXPERIENCE. The Chan Centre's tagline. Typographic treatment: **AG OLD FACE MEDIUM** justified on either end of logo / tracking is set loose. This can be applied to all versions of logo.

WHITE SPACE AROUND LOGO

7. Clear space around the logo is essential for maintaining legibility. Any additional copy or graphic elements must be at least 2 'E' widths apart from logo.

SIZING GUIDELINES

8. The linework within the logo is set to scale together as one unit and as a vector image. Thus, the logo can be resized larger to infinity. For smaller versions, the secondary line 'for the performing arts' will be eliminated. These restrictions apply to versions with and without keyline, all b+w versions, and all colour versions.

FOR ALL VERSIONS 1.5" x 1.5" AND LARGER:
USE SECONDARY LINE: 'for the performing arts'

FOR VERSIONS 1" x 1" AND SMALLER:
DO NOT USE LINE: 'for the performing arts'

SMALLEST ACCEPTABLE SIZE: .5" x .5"

LOGO PLACEMENT FOR ADS/PUBLICATIONS

9. Placement of logo is versatile, favouring selection 1 & 2. Placement depends upon elements of existing ad, meaning: If there's an area (within the four corners) that is not busy, than that placement is preferred.

10. UBC recently updated their brand which includes the tagline 'a place of mind'. The Chan Centre being located at UBC, frequently uses their logo in conjunction with the UBC brand. Here are a few guidelines in terms of placing the logo with the UBC brand:

10a) B+W VERSION: 1

10b) B+W VERSION: 2

10c) B+W VERSION: 3

10d) COLOUR VERSION: 1

10e) COLOUR VERSION: 2

10f) COLOUR VERSION: 3

11. Brand quality lies in maintaining consistency everytime the brand is presented. Here are a few simple rules to follow. When encountering a problem on what is acceptable and what is not, use common sense and most likely, the b+w versions explained in this book will be a good solution. Take care of the brand, be true to the brand, and the equity will remain for years to come.
