Notes:

- Additional equipment may be available from the Building Stock. Please see Chan Shun Concert Hall totals for details.

-Please confirm availability of spare equipment with Chan staff prior to considering its use.

-Equipment may move between venues ONLY with prior approval of Chan staff.

-The Chan Centre has 1000w Narrow Par 64 bulbs in stock. Numbers are limited.

-Source 4 is an incandescent focusable lamp with shutters, and is able to project gobos.

-Par 64 is a soft wash lamp, with interchangeable bulbs allowing for a narrow or medium beam of light.

-7" Fresnel is a soft wash lamp that can spot or flood its light. Barndoors can be used to shape the edges.

-The venue has a supply of 20A TLG cable which should meet most typical requirements.
